Glasgow G1 2HP

Dear David ,

As you are not doubt aware by now, I will commence on the 17th of March next Sunday a hunger Strike. This hunger strike by me is a protest against the Clydesdale Bank and its business partners Cerberus/Promontories Chestnut and their conduct towards me and my family over the past 36 months since you entered into your business arrangement with them to act as the unlicensed and unregulated collector of your outstanding loans and securities you held on my family home. As you are also aware, I am a member of the CYGB Remediation Group and through our coordinator Ian Lightbody it has been explained to you how my family has been bullied and brutalized by Cerberus/Promontoria in their campaign to steal my businesses and my personal wealth which includes my family home. They have used an army of lawyers receivers and trustee's to singularly make me and my family's life a misery these past 3 years. In that time, I and my family including my wife have or are involved in eight yes eight legal cases with the possibility of another pending ! I have now taken this very very serious decision to go on hunger strike which might have very serious implications for my health, however I find myself in a such a difficult and desperate situation that I believe I have little or no alternative. This is a protest which I need to do for myself my family and others who find themselves at the hands of the Cerberus/Promontoria and their ruthless actions which are conducted in your company's name.

I am asking you David as a family man and CEO of the CYGB to intercede on my behalf I am asking that you grant me the opportunity to make this request in person.

Yours Sincerely

Giovanni (John) Guidi
