## OPEN LETTER TO OUR PRIME MINISTER

**Business** - “The objective is to have Banks put things right, redress customers, where they should be redressed, and continue to reinforce our work that Banks really need to earn people’s trust. Without this redress, through a credible Business Banking Resolution Service (BBRS), followed by an appropriate closure and reconciliation process, within each bank, for the last 20 years we will not help this nation and its people, through many small businesses, PROSPER in a post- Brexit United Kingdom”

**People** - In relation to the People’s UK Mortgage Prisoners – “We do not want to be left behind within our Prime Minister’s hope for our nation. We didn’t deserve this and should not continue to suffer. We insist that our “People’s Government” provide a solution and reflect it in the chancellor’s budget speech on 11th March 2020, to the nation.

We understand, and indeed wholly support, the policy in which you plan to reshuffle your Cabinet / Her Majesty’s Government ministers, imminently, in what you have publicly stated will be the “Peoples Government”.

In that regard we believe that, Mr. John Glen MP, the longest serving Economic Secretary to the Treasury, since the global financial crisis, must be replaced by someone who has the competence and confidence of banking victims from “Business” and ‘People’, industry at large and financial services to take our country forward and oversee the closure and reconciliation process.

Page 1 of 2

We, the undersigned on behalf of our members, therefore, request that you appoint someone who meets the foregoing criteria regarding Competence and Confidence, that being Mr. Kevin Hollinrake MP as your new Economic Secretary to the Treasury.
